### **1. Curriculum:**

The responses provided by the students regarding the curriculum were discussed enough in the Staff Council and the recommendations of the Council were informed to the members of the Board of Studies of the Manonmaniam Sundararajan University. They, in turn, represented the same at the Board of Studies, which is the responsible body for framing the curriculum of all the programmes in the colleges, affiliated to the university.

### **2. Teaching learning Methods:**

The responses given by the students regarding the teaching learning methods adopted on the campus became one of the agenda in the Department meetings. Suggestions and recommendations were invited from the staff members with the view to better the areas, where improvements must be initiated. The teachers were encouraged to make use of more number of teaching aids for the benefit of the students. Since many Departments had urged the management of the college to build its infrastructure like having additional smart classrooms, the same was offered to them. The students too were given enough counselling and motivation to perform better.

### Curriculum:

### Analysis Report:

Having analysed the above chart concerning the students' feedback on curriculum, the following is understood:

Majority of the students are happy about the prescribed curriculum in terms of its content, its objectives, and its positive outcome upon the knowledge of the students. They also feel that the curriculum demands students' strength, which is good.

The tasks of writing tests and assignments were also appreciated by the students. When asked about the simplicity of curriculum and the materials provided, they were unsure of their opinions

### **1. Curriculum:**

The responses provided by the students regarding the curriculum were discussed enough in the Staff Council and the recommendations of the Council were informed to the members of the Board of Studies of the Manonmaniam Sundararajan University. They, in turn, represented the same at the Board of Studies, which is the responsible body for framing the curriculum of all the programmes in the colleges, affiliated to the university.

### **2. Teaching learning Methods:**

The responses given by the students regarding the teaching learning methods adopted on the campus became one of the agenda in the Department meetings. Suggestions and recommendations were invited from the staff members with the view to better the areas, where improvements must be initiated. The teachers were encouraged to make use of more number of teaching aids for the benefit of the students. Since many Departments had urged the management of the college to build its infrastructure like having additional smart classrooms, the same was offered to them. The students too were given enough counselling and motivation to perform better.

### Curriculum:

### Analysis Report:

Having analysed the above chart concerning the students' feedback on curriculum, the following is understood:

Majority of the students are happy about the prescribed curriculum in terms of its content, its objectives, and its positive outcome upon the knowledge of the students. They also feel that the curriculum demands students' strength, which is good.

The tasks of writing tests and assignments were also appreciated by the students. When asked about the simplicity of curriculum and the materials provided, they were unsure of their opinions

The responses given by the students regarding the teaching learning methods adopted on the campus became one of the agenda in the Department meetings. Suggestions and recommendations were invited from the staff members with the view to better the areas, where improvements must be initiated. The teachers were encouraged to make use of more number of teaching aids for the benefit of the students. Since many Departments had urged the management of the college to build its infrastructure like having additional smart classrooms, the same was offered to them. The students too were given enough counselling and motivation to perform better.

### Curriculum:

### Analysis Report:

Having analysed the above chart concerning the students' feedback on curriculum, the following is understood:

Majority of the students are happy about the prescribed curriculum in terms of its content, its objectives, and its positive outcome upon the knowledge of the students. They also feel that the curriculum demands students' strength, which is good.

The tasks of writing tests and assignments were also appreciated by the students. When asked about the simplicity of curriculum and the materials provided, they were unsure of their opinions

The responses given by the students regarding the teaching learning methods adopted on the campus became one of the agenda in the Department meetings. Suggestions and recommendations were invited from the staff members with the view to better the areas, where improvements must be initiated. The teachers were encouraged to make use of more number of teaching aids for the benefit of the students. Since many Departments had urged the management of the college to build its infrastructure like having additional smart classrooms, the same was offered to them. The students too were given enough counselling and motivation to perform better.
